

keyof/typeof Operators

```
const a = { value: 'test' };  
type A = typeof a; // { value: string }  
  
const b = { value: 'test' } as const;  
type B = typeof b; // { readonly value: 'test' }  
  
const c = { a: 1, b: 2 };  
type C = keyof typeof c; // 'a' | 'b'
```
