

```
const version: string = '1.0.0'  
const id: number = 42  
const enabled: boolean = true
```

```
function printNumber(x: number): void {  
    console.log(x)  
}
```

```
function printString(x: string): void {  
    console.log(x)  
}
```

```
function printBoolean(x: boolean): void {  
    console.log(x)  
}
```
